

IN THE CIRCUIT COURT OF THE EIGHTH JUDICIAL CIRCUIT
IN AND FOR ALACHUA COUNTY, FLORIDA

CHRISTOPHER A. HANSON, individually and as attorney for himself and next friend
and attorney for his two minor children,

Petitioners,

v.

CASE NO.: 01-2026-CA-001794

Circuit Civil Division W

UNIVERSITY OF FLORIDA BOARD OF TRUSTEES, and CUSTODIAN OF PUBLIC
RECORDS, UNIVERSITY OF FLORIDA,

Respondents.

**PETITIONER'S NOTICE OF OBJECTION TO THE IN CAMERA SUBMISSION
AS DELIVERED, AND NOTICE OF INTENT TO MOVE FOR A PROTOCOL
ORDER**

Petitioner Christopher A. Hanson, self-represented, gives notice of the following
objection so that it is of record before the Court inspects the documents Respondents
delivered to chambers.

1. At the September 2, 2026 evidentiary hearing the Court directed Respondents to deliver, for in camera inspection, all documents located by the University in fulfilling public records request No. W018463-032626, including non-responsive records, within five days. No written order has been entered.
2. Petitioner was disconnected from the hearing as he pointed out the need for UF to confirm the electronic footprints that will confirm or dispute whether the documents produced for the in camera inspection are precisely those identified as early as March 30, 2026. He's unclear whether and how long the Court continued without him and what was said outside his presence, if anything.
3. On September 2, 2026, after the judicial assistant's 2:03 PM email approving electronic delivery, Respondents' counsel delivered the documents to chambers by email. Petitioner was not copied. Petitioner learned of the delivery from Respondents' counsel's email of September 3, 2026 at 4:32 PM. On September 4, 2026 at 11:54 AM the judicial assistant confirmed to the parties that the Court has received the documents.
4. Before the delivery, at 1:34 PM on September 2, Petitioner had asked Respondents' counsel in writing whether the University objected to identifying how the delivered records relate to the batches described in the University's own records. That question was not answered before the delivery was made. On

September 3, 2026 at 8:16 AM, Petitioner transmitted to the Court a proposed Order on In Camera Inspection (Filing 256318669).

5. By Respondents' counsel's own inventory, the submission consists of six files totaling 538 pages. It does not include the 621 pages the University's own processing file records as "received from UFIT on 04/24/26" (Petitioner's Exhibit K, Filing 255904665, at 273). It was delivered without a certification of completeness by the records custodian, without an index identifying each document by date, author, recipients, and subject, and without a statement of chain of custody.
6. There are numerous failures in UF's compliance yet again with similar occurrences in May of 2026 and July 2026 in which Defendants attempted to close the case while clearly not revealing all records. Allowing them to avoid strict compliance now will only cause further complications and expenses.
7. Petitioner objects to this in camera inspection supporting a determination of sufficiency of the University's search or production on that submission, until the Court has considered Petitioner's proposed order and the Motion to Establish Protocol for In Camera Inspection that Petitioner will file on or before Tuesday, September 8, 2026.
8. Petitioner requests that the submissions from Defendants today be retained in the court file under seal, precisely as delivered, so that the material inspected is preserved for review and further proceedings. This is a specific request for preservation and for retention of all relevant chain of custody materials on the documents defendants produced this week.

Respectfully submitted this 4th day of September, 2026.

/s/ Christopher A. Hanson

Christopher A. Hanson, Esq., Florida Bar No. 44094
